In the previous Annual General Meeting (AGM) of the Company held on 30th December, 2016, the Members of the Company has approved the resolution for changing the name of the Company from 'Mandhana Industries Limited' to 'The Mandhana Industries Limited' together with the corresponding alteration in the Memorandum and Articles of Association of the Company ('said resolution').

However, the management of the Company has, after series of deliberations and discussions with the Board of Directors measured that the said change in the name of the Company would be undesirable and may affect the goodwill and the reputation created by the brand 'Mandhana' since 1984 i.e. the year of incorporation of the Company. In view of the above, the Board of Directors in its meeting held on 1st March, 2017 proposed to rescind the said resolution passed by the Members of the Company at the previous AGM held on 30th December, 2016.

COMPANY PERFORMANCE AND BUSINESS OVERVIEW

The total revenue from operations for the year 2016-17 was ₹ 51,671.16 Lakh. The total loss before tax was ₹ 74,845.88 Lakh mainly due to subdued manufacturing operations, lower profitability, write off of inventories on account of non-moving/slow moving obsolescence stock which was part of closing stock for FY 2014-15 and FY 2015-16.

The Company also suffered financial crunch due to non-enhancement of working capital facilities from past two years by working capital lenders, on account of which the procurement of fresh raw material suffered badly, ultimately leading to low production and consequent decline in sales.

Further, due to poor market conditions coupled with its liquidity crisis, the Company took a conscious call to reduce its trading business which further resulted in reduction in revenues.

A detailed discussion of operations for the year ended 31st March, 2017 is provided in the Management Discussion and Analysis Report, which is presented in a separate section forming part of this Annual Report.

SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR 2016-17

Application to National Company Law Tribunal (NCLT) under section 131 of the Companies Act, 2013 seeking revision of the financial statements for the financial year 2014-15 and financial year 2015-16

During the financial years 2014-15 and 2015-16, the Management of the Company has valued the inventories estimating that the net realizable value of such inventories would be higher than the cost of total inventories, as the management was optimistic of a favourable turn-around in the prices and other external factors impacting the textile business. It was assumed that the slow moving stocks which had been piled up in course of business would be cleared at a price not less than the cost based on the past experience of the management. In light of the above, the cost of inventory taken in the financial statements in the F.Y. 2014-15 and F.Y. 2015-16 was based purely on estimation and reasoning suggesting the net realizable value to be higher than cost based on past experiences of the management.

Subsequently, during the financial year 2016-17 the inventories were categorized as slow moving stock which had become obsolete over the period of time on account of unfavourable market conditions. Hence, the management

has decided to sell such inventories at a loss, which has been reflected in the financial statements of the Company for the financial year 2016-17, causing an abnormal loss to the Company which should have been appropriated in the previous two financial years i.e. FY 2014-15 and FY 2015-16 as the stocks had been with the Company since then.

The Board of Directors, after considering the aforesaid, vide a circular resolution passed on 16th March, 2017, authorized the Company to make an application to NCLT seeking revision of the Financial Statements (along with the Directors Report) for the financial year 2014-15 and 2015-16 in order to proportionately reflect the reduction in valuation of inventory based on market conditions and external factors in the financial statements for the financial years 2014-15, 2015-16 and 2016-17.

MATERIAL CHANGES AND COMMITMENTS, IF ANY, AFFECTING THE FINANCIAL POSITION OF THE COMPANY WHICH HAVE OCCURRED BETWEEN THE END OF THE FINANCIAL YEAR OF THE COMPANY TO WHICH THE FINANCIAL STATEMENTS RELATE AND THE DATE OF THE REPORT

Except the changes which have occurred during the financial year 2016-17, stated hereinabove, no material changes and commitments has occurred after the close of the year till the date of this report, which affect the financial position of the Company.

Management Discussion and Analysis

1. Industrial Structure & Development

Global Economy:

India is the second largest exporter after China of textiles and apparel products having 6% share in the global trade. The Global economy disappointed in terms of growth, with deceleration of activity in key emerging and developing economies like China, Brazil, Russia, Bangladesh, Sri Lanka overshadowing a modest recovery in major high income countries.

The deceleration was accompanied by declines in commodity prices, subdued global trade, bouts of financial market volatility and weakening capital flows. Inflation has come down, however industrial activity and consumption has not been buoyant.

The future growth in the market will be primarily driven by the increase in population as well as the per capita apparel spending of the already large population in these countries. It is estimated that the global apparel market will be around US\$ 2.6 Trillion by 2025 growing at a CAGR of 4% per annum. This high growth in apparel consumption in developing economies will further drive the growth of textile manufacturing and trade in emerging countries.

Indian Economy:

Indian Textile and Apparel industry contributes about 14% to industrial production, 5% to GDP and 17% to country's export earnings.

Textile industry is facing tough times due to the adverse market scenario in domestic and export markets. Our focus remains on value added products and new product development to cater to the niche segment of the market.

However, there are several challenges ahead for the Textile industry for enhancing its competitive strength and global positioning in terms of inflexible labour laws, poor infrastructure, competition from low cost neighboring countries which will have to be addressed to sustain the growth momentum of the industry.

Growth continues to falter in advanced economies and, while there is considerable divergence of performance across emerging market and developing economies, their overall growth

remains below potential. Investment continues to be soft amid weaker growth prospects and elevated policy uncertainty, while export growth has slowed reflecting subdued external demand.

Today, India is the fastest growing large economy in the world. Source: Central Statistical Organisation (CSO) Government of India. Additionally, its other macroeconomic parameters like inflation, fiscal deficit and current account balance have exhibited distinct signs of improvement. Wholesale price inflation has been in negative territory for more than a year and the all-important consumer prices inflation has declined to nearly half of what it was a few years ago. With inflation under control, the Reserve Bank of India (RBI) has eased monetary policy and reduced the benchmark repo rate in three installments by a total of 100 basis points. Consequently, lending rates have reduced marginally. The base rate for scheduled commercial banks, which was 10.25% in financial year (FY) 2014, has reduced to 9.7% by the end of FY 2016. Having said so, interest rates need to come down further to really bolster investments. Source: MOSPI, Government of India. On the one hand, the lower inflation and softening of and softening of interest rates augur well for consumption led growth of the real economy in India; on the other hand, the variance in the pace at which inflation and interest rates have reduced poses a problem for investment led manufacturing growth. Weak growth in advanced and emerging economies has taken its toll on India's exports. In fact, exports reduced by 6.3% over 2015-16.

The textiles and apparel industry is highly matured and has strong correlations with global macro-economic developments. The industry relies on transnational specialization and involves a healthy level of global trade. The macro-economic trend of shifting manufacturing operations in the mid to lower value stream of the industry to relative low cost emerging economies is quite widespread for textiles and apparels. Also, new avenues of growth in demand are primarily in the emerging markets, while the sheer size of the large advanced economies like USA and Europe still remain the largest markets for the global industry.

The Company

Mandhana Industries Ltd., known by its name has established a remarkable impression in the market, since more than 25 years. However, last year has been a very tough and challenging year for the Company. It has faced multitude of problems internally due to non-recovery of debtors, write off on account of inventory obsolescence coupled with lower market demand, weaker manufacturing activity, rising prices of raw materials, weak capital inflows, which in turn led to highly leveraged financial position, which further led company facing considerable stress and consequently being considered NPA by its consortium of working capital lenders as well as term lenders.

Due to general market recession, the demand & prices of Textile Products remained weak. Moreover, Increasing cost of inputs on one hand & thin margin on selling price on the other, kept Company busy in struggling. Further, sale of old and obsolete stock at heavily reduced price added to further losses to the company. All above factors coupled with huge interest costs made the situation worse. The Company during the year, to ensure better management of its costs, temporarily closed down some of its manufacturing units at Sewree, Baramati, Bengaluru & Tarapur.

Financial Overview:

Revenue stood at ₹ 516.71 crores against ₹ 1646.61 crores owing to decrease in sales of fabrics due to lower manufacturing capacity utilization on account of financial crunch occurred out of High Interest rates, Liquidity blocked by Buyers, claims & discounts offered to Buyers, etc. Revenue from Textile business stood to ₹ 347.74 crores and garment business ₹ 168.97 crores (as compared to last year ₹ 1437.41 v & ₹ 209.20 crores respectively)

Annexure A referred to in paragraph 1(f) of Our Report of even date to the members of MANDHANA INDUSTRIES LIMITED on the Financial Statements of the company for the year ended 31st March, 2017

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of MANDHANA INDUSTRIES LIMITED ("the Company") as of 31st March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Act

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting are established and maintained and whether such controls operated effectively in all material respects

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their

operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement in the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting

Meaning of Internal Financial Controls over Financial Reporting

Internal financial control over financial reporting is a process designed by the Company to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Further, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate owing to changes in conditions, or that the

degree of compliance with the policies or procedures may deteriorate or for other reasons

Opinion

In our opinion, Based on representations provided to us by the Management, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Note forming part of Balance Sheet and Profit and Loss Account

(i) Interest on Borrowings/Debentures:-

Loan Processing fees/transaction cost, the same cost under Ind-As 23 are considered for calculation effective interest rate. The impact for the periods subsequent to the date of transition is reflected in the Profit and Loss Account.

(ii) Interest on Security Deposit/Prepaid Rent:-

Under Indian GAAP, Lease Security Deposits (which are refundable in the nature on the completion of the lease term) are recorded at the transaction value. As per Ind AS 109, Financial Instruments, all financial assets and liabilities are required to be recognized at fair value. Since lease security deposits are refundable, these would generally meet the definition of Financial Asset under Ind AS 109. As the Security Deposits are interest free, the difference between the deposit amount and the fair value would then be recognized in the statement of Profit and Loss on straight line basis over the lease term.

(iii) Foreign Exchange:-

Premium or discount and MTM (Mark to Mark) loss recognized as per the IGAAP in the Profit and Loss account have been reversed. MTM on forward contracts have been recognized in statement of Profit and Loss account with recognition of Financial Asset or Liabilities in the Balance Sheet.

(iv) Deferred Tax:-

The impact of transition adjustments together with Ind – As 12 mandate of using balance sheet approach (against profit and loss approach in the previous GAAP) for computation of deferred taxes has resulted in charge to the Reserves, on the date of transition, with consequential impact to the Profit and Loss Account for the subsequent periods.

(v) Employee Benefit/ Other Comprehensive Income:-

Employee Benefit/ Other Comprehensive Income:- Both under IGAAP and Ind AS, the Company recognized costs related to its post-employment defined plan on an actuarial basis. Under IGAAP, the entire cost, including actuarial gains and losses, are charged to Profit or Loss Accounts. Under Ind AS, remeasurements are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI. Accordingly, the amount of actuarial gain is ₹ 55.97 Lakhs reduced from the amount of employee benefit expenses.

(vi) Fair Valuation as Deemed Cost for Land:-

As required by Ind AS -101 the company has option to take deemed cost of Property, Plant & Equipment either at carrying value or fair value. On transition to Ind AS, the company has elected to continue with the carrying value of its property, plant & equipment except Land recognised as at 1 April, 2015 measured as per previous GAAP. The company has considered fair value for such land admeasuring over 158,649 sq Mt. , situated in Tarapur and Baramati, resulting in impact of ₹ 15,208.41 lakhs in accordance with stipulations of Ind-AS 101 with the resultant impact being accounted for in the reserve.

(vii) Attributing time value of money to Assets Retirement Obligation:-

Under Ind-As, such obligation is recognized and measured at present value. Under pervious Indian GAAP it was recorded at cost. The impact for the periods subsequent to the date of transition is reflected in the profit and Loss Account.

(viii) Demerger of Retail Division Business:- A Scheme of Arrangement between Mandhana Industries Limited (“MIL/ Demerged Company”) and Mandhana Retail Ventures Limited (“MRVL/Resulting Company”) and their respective shareholders and creditors, pursuant to which the Retail Division of MIL has been demerged and transferred into MRVL. The Appointed date of the said arrangement was April 1, 2014 though approval from the Hon’ble High Court of Judicature at Bombay had received on March 29, 2016. The company has not considered the impact of Ind AS 103 “Business Combinations” as the transaction happened prior to transition date i.e. April 1, 2016 and accordingly the financial numbers of 2014-15 and 2015-16 of the demerged entity (MIL) have been considered while working out Ind AS adjustments.

40 Significant accounting policies and practices adopted by the Company, are disclosed in the statement annexed to these financial statements as Annexure I.

41 The cost of material consumed and change in inventories includes a write off of ₹ 50135.07 lacs on account of old nonmoving /slow moving stock obsolescence has been part of the closing stock for FY 2015 & FY 2016. Since the said stock has been liquidated in second and Third quarter of the year, at a value which is significantly lower than the book value, there are reasons to believe that the valuation as reflected in FY 2015 & FY 2016 could have been presented at cost instead of Market Realisable Value. In view of the above, the Board of Directors find it prudent to refer the matter to the National Company Law Tribunal (NCLT) and seek revision of Financial Statements for FY 2015 & FY 2016 under Section 131 "Voluntary revision of financial statements or Board's Report" of Companies Act, 2013.

The above results including those of FY 2015 and FY 2016 may undergo change consequent to the order passed by National Company Law Tribunal (NCLT) pursuant to our application.

Tangible Assets

Assets Classification	Useful life assessed by management
Plant And Machinery	16 -20 Years
Office & Factory Equipment's	6-8.5 years

Vehicles	8-10 Year
Computer & Accessories	3.5-4.5 Years

Intangible Assets

These are amortized as under

Assets Classification	Useful life assessed by management
Computer Software	Over the period of 5 Year

K. BORROWING COST

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

L. CONTINGENT LIABILITIES

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The contingent liability is not recognised in books of account but its existence is disclosed in financial statements.

M. IMPAIRMENT OF NON-FINANCIAL ASSETS

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset. Unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

N. PROVISIONS

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised

as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

O. FINANCIAL INSTRUMENTS

Initial recognition

The company recognise the financial asset and financial liabilities when it becomes a party to the contractual provisions of the instruments. All the financial assets and financial liabilities are recognised at fair value on initial recognition, except for trade receivable which are initially recognised at transaction price. Transaction cost that are directly attributable to the acquisition of issue of financial asset and financial liabilities, that are not at fair value through profit and loss, are added to the fair value on the initial recognition.

Subsequent measurement

Non derivative financial instruments

Financial Assets at amortised cost

A financial assets is measured at the amortised cost if both the following conditions are met :

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. All the Loans and other receivables under financial assets (except Investments) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Trade receivables do not carry any interest and are stated at their nominal value as reduced by impairment amount.

Financial Assets at Fair Value through Profit or Loss/Other comprehensive income

Instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

If the company decides to classify an instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

Financial liabilities

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. However, the Company has borrowings at floating rates. Considering the impact of restatement of Effective interest rate, transaction cost is being amortised over the tenure of loan and borrowing.

Trade & other payable

After initial recognition, trade and other payables maturing within one year from the Balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derivative financial instruments

The company holds derivatives financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. Company have taken all the forward contract from the bank.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

P. CASH AND CASH EQUIVALENTS

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits which are subject to an insignificant risk of changes in value.

Q. INVENTORIES

- Finished goods are valued at cost or net realizable value, whichever is lower
- Work in progress valued at cost. Cost comprises all cost of materials, cost of conversion and any other cost incurred in the production process
